

# DIVIDING BREECHINGS

Fig.DBLA-800

Fig.DBLA-800-BVC

Fig.DBLA-800-P

## GENERAL

"AE" dividing breechings are generally manufactured to BS336 and fitted with instantaneous connections. They are produced within a strict quality environment to ISO 9001:2008 standard.

They come with or without individual lever ball valve shut-off control outlets.

Other national standard or customer's requirement for different connections are available.

---

## FEATURES

- Elegant and compact design.
- Robust construction.
- Easy operation.
- Reliable performance with no maintenance required.

---

## DESIGN AND TEST PRESSURES

Design Pressure: 16 bars

Factory Test Pressure: 22.5 bars

---

## MATERIALS

Aluminium alloy, Brass and LG2 Gunmetal
